# Section I- Overview of the Montana Criterion-Referenced Test

## The Criterion-Referenced Test (CRT)

On April 5, 2002, the Montana Office of Public Instruction (OPI) entered into a compliance agreement with the U.S. Department of Education to bring the state into compliance with the provisions of the following federal laws: Title 1 of the Elementary and Secondary Education Act (ESEA) of 1994, P.L. 103-382 and the No Child Left Behind Act (NCLB) of 2001. Montana received federal appropriations to develop an appropriate assessment. The criterion-referenced test (CRT) was developed in accordance with the compliance agreement and federal laws.

The CRTs are based on, and aligned to, Montana's Content Standards in Reading and Mathematics. Montana educators worked with OPI and its contractor, Measured Progress, in the development and review (content and bias) of these tests to assess how well students have learned the Montana content standards for their grade. Beginning in school year 2003-04, grades 4, 8, and 10 were tested in reading and mathematics. Starting in school year 2005-06, grades 3 through 8 and grade 10 were tested in reading and mathematics. By the 2007-08 school year, one grade in each of three grade spans (e.g., four, eight, and ten) will be tested in science.

## Reporting CRT Results and Privacy

Federal and state statutes protect the privacy of certain student records, including test results. The federal Family Educational Rights and Privacy Act (FERPA) and the Montana privacy statutes require certain student information be protected and used only by those persons who have a direct educational responsibility for that student's instruction. To protect privacy, the Office of Public Instruction will not report CRT results where the student count is less than 10.

# Criterion-Referenced Test Data Glossary

**Adequate Yearly Progress (AYP):** An individual state's measure of yearly progress toward achieving state academic standards. "Adequate Yearly Progress" is the minimum level of improvement that states, school districts and schools must achieve each year.

**Aggregate:** The total or combined performance of all students for reporting purposes.

**Criterion-Referenced Test (CRT):** A standardized test that is aligned with Montana's content standards in order to measure students' performance with respect to said standards.

**CRT Alternate Assessment (CRT-Alt):** An evidence-based test that is aligned with Montana's content standards through extended benchmarks and measures student performance based on alternate achievement standards. It is expected that only those students eligible under the Individuals with Disabilities Education Act (IDEA) who have the most significant cognitive disabilities will participate in the alternate assessment.

**Disaggregation:** Separate a whole into its parts. Adequate Yearly Progress data is disaggregated by race/ethnicity, economically disadvantaged, limited English proficient, and students with disabilities.

**Economically Disadvantaged:** A student eligible to participate for the Free/Reduced Lunch Program under the National School Lunch Act.

**Individualized Education Program (IEP):** The written instructional plan for students with disabilities designated as special education students under the Individuals with Disabilities Act (IDEA-Part B) which includes:

- statement of present levels of educational performance of a child;
- statement of annual goals, including short-term instructional objectives;
- statement of specific educational services to be provided and the extent to which the child will be able to participate in regular educational programs;
- projected date for initiation and anticipated duration of services; and
- appropriate objectives, criteria and evaluation procedures; and schedules for determining, on at least an annual basis, whether instructional objectives are being achieved.

**Limited English Proficient (LEP):** A student that:

- was born outside of the United States and their native language is other than English; or
- comes from environments where the language is predominantly non-English; or
- American Indians and Alaska Natives whose level of English language proficiency may have been affected by a non-English environment resulting in difficulty speaking, reading, writing, or understanding the English language. These individuals may have been denied the opportunity to learn successfully in classrooms of English language instruction or to participate fully in our society.

**No Child Left Behind Act (NCLB):** The Elementary and Secondary Education Act (ESEA) as reauthorized by the No Child Left Behind Act of 2001 (NCLB), which increases accountability for student academic achievement for all public schools.

**Norm-Referenced Test (NRT):** A standardized testing instrument by which the test-taker's performance is interpreted in relation to the performance of a group of peers, or norming group, who have previously taken the same test. Scores from a norm-referenced test indicate how a given student's knowledge or skill compares with that of others in the norm group. They do not indicate what a student does or does not know.

**Performance Level:** The overall performance in a domain on the CRT described in four levels: Advanced (exceeds the standard); Proficient (meets the standard); Nearing Proficiency (partial mastery of standard) and Novice (does not meet the standard).

**Race/Ethnicity:** The general racial or ethnic category which most clearly reflects the individual's recognition in his or her community, or with which the individual most identifies.

**American Indian/Alaskan Native**—A person having origins in any of the original peoples of North and South America (including Central America), and who maintains cultural identification through tribal affiliation or community recognition.

**Asian**—A person having origins of any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinents. This area includes China, India, Japan, and Korea.

**Black or African American (not Hispanic)**— A person having origins in any of the black racial groups of Africa.

**Hispanic or Latino**—A person who traces his or her origin or descent to Mexico, Puerto Rico, Cuba, Central and South America, and other Spanish cultures, regardless of race.

**Native Hawaiian or Pacific Islander**—A person having origins in any of the original peoples of Hawaii or the Pacific Islands. This area includes Guam, the Philippine Islands, Samoa and Tahiti.

**White, Non-Hispanic**—A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

**Significant Cognitive Disabilities:** A student that meets all of the following criteria:

- has an active IEP and receives services under the Individuals with Disabilities Education Act (IDEA);
- has demonstrated cognitive abilities and adaptive behavior that require substantial adjustments to the general curriculum;
- has learning objectives and expected outcomes focused on functional application of skills, as illustrated in the student's IEP's annual goals and short-term objectives; and
- requires direct and extensive instruction to acquire, maintain, generalize and transfer new skills.

**Students with Disabilities:** A student having an Individualized Education Program (IEP) under the Individuals with Disabilities Act (IDEA-Part B).

**Subgroup:** A well-defined group of students. The following subgroups are included in Montana's adequate yearly progress determinations: all students combined, American Indian, Asian, Hispanic, Black, Pacific Islander, White, economically disadvantaged, limited English proficient, and students with disabilities.
