

## Emergency Patch: 2010.1.0939

*September - October 2009*

The following corrections and/or enhancements are included in emergency patch bundles for September/October 2009. This information will also be included in the .0943 patch bundle.

Emergency patches are used to fix a critically urgent issue, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Patch Bundle). Emergency Patches are typically very small and usually contain a fix for a single reported issue.

The life cycle of an Emergency Patch ends as soon as the next Patch Bundle is delivered. It is recommended that customers apply all subsequent Patch Bundles immediately following Emergency Patches. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Emergency Patches are cumulative, which means if a customer needs a correction in the latest patch available, but did not take any previous emergency patches, the customer's site will be updated to the latest patch available.

Below is a list of all Emergency Patches for 2010.1.0939 and the date of availability:

- 2010.1.0939.2 - September 30, 2009
- 2010.1.0939.1 - September 28, 2009

2009-2010 Survey 2 Modifications (SIS-17924)

Additional 2009-2010 modifications have been made to Survey 2. The following is a list of modifications made:

##### Student Demographic Report

- Field 1: District of Current Instruction Service was occasionally reporting an incorrect value of 00. This has been corrected. This field now correctly reports values from the State District

Number field (System Administration > District Information > State District Number).

- Grades 30 and 31 will only report in the Student Demographic Report for Survey Period 5.

#### FSI Report

- Code F: Awaiting Foster Care has been activated in the Homeless dropdown list found on the Federal/State Indicator tab.
- Field 9: Homeless Student PK-12 was incorrectly reporting a default of Z. This has been corrected. Default value now reports as N.
- Edit Error #41 was missing from the edits. This has been corrected.

#### Title 1 Report

- Science checkbox has been added to the Title 1 tab.
- If Science checkbox is not marked, Field 15: Science Hours of Contact will report 999.
- If Science checkbox is marked and Hours of Contact field is blank, Field 15: Science Hours of Contact will report 000.
- Fields 21, 22 and 23 Achievement Goals Mastered Reading, Math and Science report 00 regardless of existing data.
- Fields 6, 7, and 8 Achievement Goals Reading, Math and Science now report null values as 00.
- Field 12: Length of Prescribed Program now reports null values as 000.
- All changes mentioned for this report have also been made to Survey 9.

#### Assessment Report

- Field 10: Test Form now reports Z for all test forms that do not apply. Values are reported from the Test Form Field (Student Information > General > Assessment > Child Test > Test Score Detail > Form). If this field is null, value is reported from Form field (Student Information > General > Assessment > Parent Test > Test Score Detail > Form). If both fields are null, value Z will report.
- Field 7: Publication Year now reports the Publication Test Year from the Year field (System Administration > Assessments > Tests > Test Detail > Year).
- Test Score Type value Raw Score was incorrectly reporting as GV. This has been corrected. Raw Score now reports as RS.
- Field 12: Test Level will now report vales from Grade Level field (Student Information > General > Assessment > Child Test > Grade Level). If this field is null, value is taken from Grade Level field (Student Information > General > Assessments > Parent Test > Grade Level). If both fields are null, field will report ZZ.

#### ELL Report

- Fields 41, 43, 45 and 47 Test Form now report a value of Z if no Test Form applies. These fields report values from the Form field (Student Information > General > Assessment > Child Test > Test Score Detail > Form). If this field is blank, value is reported from Form field (Assessments > Parent Test > Test Score Detail > Form). If both fields are null or the student did not take an ELL assessment, field reports as Z.
- Fields 42, 44, 46, and 48 Test Level now reports values from the Grade Level field (Student Information > General > Assessment > Child Test > Grade Level). If field is null, values are reported from Grade Level field (Student Information > General > Assessment > Parent Test > Grade Level). If both fields are null or student did not take an ELL assessment, field reports value of ZZ.

#### Prior School Report

- Report was building for student in 9997. This has been corrected.

#### Exceptional Student Report

- Field 8: IDEA Environments was incorrectly reporting a default value of 0. This has been corrected. Default value is now Z.
- Field 10: Alternate Assessments was incorrectly reporting a default value of 0. This has been corrected. Default value is now Z.

### Modifications Made to EASIER Extracts (SIS-16984)

Modifications have been made to the EASIER Student ID and State Locator and Data Collections extracts. The following is a list of changes made:

#### Student ID and State Locator

- Inactive Student checkbox has been added to the extract editor when extract is selected.
- If Extract Type = Student ID and State Locator, only the following elements will report:
  - RecordID
  - LastName
  - FirstName
  - MiddleName
  - BirthDate
  - LocalStudentID
  - CurrentYear
  - All other fields report Null
- Only students with an inactive enrollment record and no State ID will report if the Students w/o State ID and Inactive Student checkboxes are marked.
- An Ad hoc Filter dropdown list has been added to the EASIER editor.

#### EASIER Data Collections

- Post Grad Plans and Diploma Type fields now report a default value of 0.
- PostGradLocation now reports a default value of 0. Value IS has been changed to 1. Value OS has been changed to 2.

### School of Assignment Dropdown List Only Displaying Millard District Schools (SIS-18208)

The School of Assignment dropdown list was incorrectly displaying only schools from the Millard district. This has been corrected. The School of Assignment dropdown list now populates with school names and codes specific to the district of the user selecting the field.

NSSRS extracts have also been updated to report School of Assignment values within the Location Code field.

### Fields Added Back to Student Template and Student Snapshot Template (SIS-18211)

The Guardian Relationship and Challenge Type fields were recently removed from the NSSRS Student Template and Student Snapshot Template. Although removal of this data from the extracts was correct, users needed the fields to remain within the extracts as placeholders. This has been corrected. The Guardian Relationship and Challenge Type fields have been added back to these extracts as placeholders.

### Modifications Made to PIMS Student Template and Student Snapshot Template (SIS-16909)

Modifications have been made to the Student Template and Student Snapshot Template. Modifications have also been made to the Home Language and Birth Country fields. The following is a list of modifications made:

#### Home Language and Birth Country Fields

- Value 0370: Bable has been removed from the Home Language dropdown list.
- Value 0010: Afghanistan has been added to the Birth Country dropdown list.

#### Student Template and Student Snapshot Template

- Field 46 now reports a Y if the student repeated the same grade level as the previous year's enrollment grade level.

- Field 53: Expected Graduation now reports values from the Projected Graduation Date field (Student Information > General > Graduation > Projected Graduation Date).
- Field 65: Grad Status Code now reports values from the Graduation Status field (Student Information > General > Enrollments > State Reporting Fields > Graduation Status).
- Field 66: Post Grad Activity now reports values from Post Graduation Plans field (Student Information > General > Enrollments > Graduation > Post Graduation Plan). If field is null, values report from Post Dropout Plan field (Student Information > General > Graduation > Post Dropout Plan).
- Field 97: Grade 9 Date will populate if students grade is 09, 10, 11, 12 or SUG. If Projected Graduation = NOT Blank, report value in YYYY-MM-DD format. If Projected Graduation = Blank, populate value from the Start Date of student's first 9th Grade enrollment. If Projected Graduation = Blank AND student does not have an historical 9th grade enrollment, value = YYYY-09-01, where YYYY is the year from Projected Graduation Date minus 4.
- Field 98: District Entry Date will report the student's Enrollment Entry Date. If override of District Entry Date exists, field will report override date.
- Field 99: School Entry Date will report the student's first day of enrollment. If override of School Entry Date exists, field will report override date.
- Field 109: State Entry Date will report the student's Enrollment Entry Date. If override of State Entry Date exists, field will report override date.

##### MSDS Early Roster and Request for UIC Null Reporting Values Causing Errors (SIS-18122)

XML data output for the MSDS Early Roster and Request for UIC extracts were reporting element names for data not required to be reported. This was causing a validation error when districts attempted to upload data to the State. This has been corrected. The following is a list of changes made:

#### MSDS Early Roster

- CollectionName="Early Roster" was missing from the header section. This has been corrected.
- Data elements with no data (null) for the element within the Campus database will no longer report the element name in the XML output.
- CollectionID in the header section now reports a value of 85.
- Multiple Birth Order was incorrectly reporting data as a two digit character instead of a one digit value (i.e., Value 01 now reports as 1). This has been corrected.

#### Request for UIC Extract

- CollectionName="Request For UIC" was missing from the header section. This has been corrected.
- Data elements with no data (null) for the element within the Campus database will no longer report the element name in the XML output.
- Multiple Birth Order was incorrectly reporting data as a two digit character instead of a one digit value (i.e., Value 01 now reports as 1). This has been corrected.

#### 2009-2010 Updates Made to PIMS Programs Fact Template (SIS-17470)

Updates for the 2009-2010 school year have been made on the PIMS Programs Fact Template. In order to properly report this update, new values have been added to the Program dropdown list found on the Programs tab. The following is a list of values added/removed on the Program dropdown list:

- 031: LEP/ELL has been added.

- 032: Homeless has been added.
- 028F: School Age Early Intervention Full-Time has been removed.
- 028H: School Age Early Intervention Half-Time has been removed.

These new values properly report on Field 5: Programs Code on the Programs Fact Template.
