IMMUNIZATION ENTRY

OVERVIEW

The **Immunizations** tab holds the dates for student immunization and has an area that will show a student's compliance to state rules and laws according to pre-defined logic statements in Campus.

OBJECTIVES

At the end of this lesson, learners will be able to:

- Enter immunization dates.
- Enter immunization waivers.
- Understand the summary results (compliant, non-compliant, exempt, in grace period).

Navigating to Immunization Tab

1. Expand Student Information by clicking the module name or the plus sign.
2. Select Health.
3. If you have not worked with a student, the search tab will appear. Search for a student using last name, first name in the search field. Click Go. Search results will display below the search field.
4. Select the student and then select the Immunization tab.

Immunizations

The Immunizations Summary section displays the immunizations that are tracked by the district. This section will show the immunization data for this student. Each immunization will show if the student is compliant, non-compliant, or within the grace period allowed, based on the dates entered into their immunization record. It will also show if the student has been granted a waiver, and on what grounds.

Immunization Summary	
Diphtheria-tetanus-pertussis, combined [DTaP, DTP]	Compliant
Polio [IPV, OPV]	Exempt - Medical
Measles-Mumps Rubella [MMR]	Non-compliant

Compliant – Compliant means that the student has received the correct number of shots for their age or grade.

Non-compliant – the student is missing the appropriate number of shots for that immunization.

Grace period – In some states, a new student (a student with a new enrollment) will be in a grace period for required immunizations for a state-defined number of days after the enrollment.

No Requirement – The district is tracking information on an immunization, but the state does not require to get these shots.

Exempt-The district has granted a waiver to the student. The reason for exemption is editable by the System Administrator to match district policy, such as Exempt-Medical or Exempt-Conscientious Objector.

Immunization Entry

Entering Immunization Dates

To enter immunization information, open the section for the immunization and enter the dates the student has received their shots in the date boxes. Dates can be entered in MM/DD/YYYY or MMDDYY format. When you click Save at the top of the tab, it will refresh the Summary to display if the student is compliant or not based upon the logic loaded in Campus.

Diphtheria-tetanus-pertussis, combined [DTaP, DTP]						
Shots	09/22/1993	12/03/1993	01/27/1994	10/25/1994	08/25/1997	
Waiver	<input type="text"/>					
Date:	<input type="text"/>					
Expires:	<input type="text"/>					

Entering Immunization Waivers

To enter immunization waivers, open the correct shot record, select the district approved waiver reason and enter the date in the MM/DD/YYYY format. When you click Save at the top of the tab, it will refresh the Summary.
