Release Notes Overview

The following corrections and/or enhancements are included in the .0939 update.

NOTE: This update requires districts to have Campus 2009.2 or Campus 2010.1.

Release notes provide the applicable personnel the ability to review the changes prior to accepting the release. It is advised that users review the release notes carefully and alert affected users in the organization to changes in the product.

Questions or concerns regarding this update should be directed to Campus Support via the Customer Portal (<http://support.infinitecampus.com>), or by calling the Campus Support toll-free number (888) 461-2004.

Product End of Life Dates

End of life for Campus 2009.2 is December 2009. Please plan accordingly.

End of life means that no further development (i.e., no bug fixes, enhancements, or state required changes) will be done on the identified version after the stated end-of-life date. Infinite Campus will release a final end-of-life update for the identified version by or shortly after the stated end-of-life date.

Localization

Mandated localization changes required by your state's department of education (DOE) and critical bug fixes will be released in Campus 2009.2 through December 2009. Please encourage your state's DOE to provide early announcements of any Localization changes.

General Availability

Access to the .0939 patch bundle will be made available when Campus Hosting accepts the modifications and enhancements in the release. Updates are applied to a district's sandbox site first. Upon review of the update and acceptance of the changes in the update, the production site will be updated.

Update requests are processed through the Customer Portal. If your Customer Portal account has not been updated to include a link to the Update Request, please contact your Client Executive.

Behavior

Behavior Letter Wizard Updates (SIS-12257)

A number of updates have been made to the Behavior Letter Wizard in an effort to correct previous issues as well as improve the overall usability. The following is a list of updates made:

- Event Count is no longer a required field. Leaving this field blank will look for any number of events in correlation with trigger criteria selected.
- When using Campus fields, only events meeting the trigger criteria during the date range or effective date entered will be included.
- Show Role is now an available option for inclusion within the Discipline Summary Sub-report.
- Blank Form Letter is now an available Letter Format. This allows users to generate letters that do not have guardian or school address information listed.
- Addressed Form Letter now generates letters which display address information to fit a standard window envelope.
- Users who select Address Form Letter are also now able to include a salutation within the new Salutation Line field. Salutations written here appear at the beginning of the address seen within the envelope window.
- Ad hoc Filter capability has been added to the Behavior Letter Wizard. Users may now generate behavior letters based on specific Ad hoc filters created.
- Users are now able to designate the Event Resolution as the date which is pulled by the wizard.
- Users are now able to filter trigger criteria based on Role. This option allows users to search and generate behavior letters based on the role a student played in the behavior

- event.
- New Sub-Report Options have been created. The following describes new options available:
 - All events matching the criteria selected for the date range - All events of the type selected with the resolution and role specified from the beginning of the calendar year to the date (last day of date range) selected will be included within the sub-report.
 - Trigger Event only - Only the event which triggered the count to be met will be included within the sub-report.
 - All behavior events in the date range - All behavior events which occurred from the beginning of the calendar year to the date selected (last day of date range) will be included within the sub-report.

FRAM Verification Modifications (SIS-14579)

The following modifications have been made to the FRAM Verification process:

- An application was being replaced with the same application. If there are no applications remaining in the qualified sample to replace an application in the sample pool, an error message will appear upon save that indicates there are no applications remaining to replace the application.

- Additional applications were being populated in the sample increasing the sample size incorrectly. In certain situations when the Verification end date was added and saved an additional application was populating in the sample pool.
- The latest application was not being included in the generated sample. If a household had more than one application for the year the qualified file did not include the latest application, but was selecting the first application entered. Additional logic has been added to account for other multiple application situations that can occur.
- A FreeReducedVerificationPool table has been created that stores qualified applications for each verification year based on a verificationID. Once Verification is run for the year, the table stores the qualified applications that are used for the sample pool. If an application is amended, excluded or deleted after Verification is run for the year, the changed application will not be added to the table. The table is a snap shot of the applications on file as of the date Verification is run. This data should not be changed or removed.
- If a household has an income application for two children and a categorical application for another child on file, both of these applications will be included in the qualified pool. However, the household will only be verified once for both applications. If this situation occurs and this household is selected to be verified, the application reference number will be displayed in black font below the application reference number pulled for verification. This will indicate there are two applications on file for the same household that need to be reviewed. Since USDA allows a household to fill out one paper application with income and categorical children, vendors are allowed to process two applications for this scenario since it is not possible for an application to have two certified types. Based on a new USDA ruling dated 8/27/09, districts are now allowed to categorically certify all children in the household if there is at least one child with a case number, the situation described above should no longer occur.

LED POP ID Modifications (SIS-15373)

LEAD POPID logic has been modified and eligibility for LED POPID 22 has also been modified. In addition, a new LEAD element has been added to the LEAD report and interface.

Overall POPID Logic

- Only POPIDs from students who are enrolled on the last day of class will be reported.
- If the LEAD report is generated for a time frame that does not correspond to the terms of a particular class, the report will still pull POPIDs from students who are enrolled on the last day of that class.

LEP POPID Logic

POPID of 22 (LEP) will only trigger under the following circumstances:

At least one student is enrolled on the last day of class and has an active LEP record on the last day of class.

The student's LEP record has at least one of the following value chosen in the Bilingual/ESL Type checkbox:

- SEN: Structured English Immersion
- CBE: Content-based ESL
- SEI: Sheltered English Instruction
- HLA: Heritage Language
- CAT: Content area tutoring
- DBE: Developmental bilingual education
- POE: Pull-out ESL/Resource
- PR: Parent refusal for services
- SEN: Structured English immersion
- TBI: Transitional bilingual immersion
- TWI: Two-way immersion
- (The FEP checkbox will not trigger the LEP POPID)

Special Type Data Element Addition

A new dropdown list has been added to the Course Section editor with the following values:

- 01: None (Default selection)
- 02: Alternative Classroom
- 03: ESL Classroom
- 04: Gifted Classroom
- 05: Special Education Classroom
- 06: Speech Therapy

The report will display the code only for this chosen element. Only one SPECTYPE value is allowed per course.

FRYSC Modifications (SIS-16073)

The following modifications have been made to FRYSC for usability purposes:

- The Program Type section will now automatically open within one of the Group Programs when viewing a student who has an existing Individual Intervention. This also occurs when multiple Program Types exist across multiple Group Programs.
- All required fields appear in red text color with an asterisk before the field name.
- Descriptions have been modified for Intervention is for and Mode of Intervention. These fields now read as follows:
 - Intervention is for (Select either or both)
 - Mode of Intervention (Select one or more)
 - A validation has been added that verifies at least one checkbox is selected for one of the Group Program Types. If one of the Program Types is not selected, a pop-up warning will appear stating "Please select one or more Program Types from the Group Programs before continuing."

Student Personal Extract Changed to Report Student's Primary Address (SIS-10763)

The Student Personal Extract was designed to report address information in relation to a student's guardian address. This became an issue as the ability to select guardians within the user interface was removed. To correct this issue, logic has been updated. The following is a list of updated logic:

- ParentGuardian1LastName reports data based on relationship with student. If Guardian is marked for the mailing address, field reports last name of the person.
- ParentGuardian1FirstName reports data based on relationship with student. If Guardian is marked for the mailing address, field reports first name of the person.
- ParentGuardian2LastName reports data based on relationship with student. If Guardian is marked for the mailing address, field reports last name of the person.
- ParentGuardian2FirstName reports data based on relationship with student. If Guardian is marked for the mailing address, field reports first name of the person.
- Address Line 1 reports data from student's mailing address.
- Address Line 2 reports data from student's mailing address.
- City/Town reports data from student's mailing address.
- State/Province reports data from student's mailing address.
- Zip Code reports data from student's mailing address.
- Home Phone reports data from student's mailing address.
- Email reports data from student's mailing address.

Logic has also been modified for the Student Person Import. The following is a list of updated logic:

- If ParentGuardian1LastName is left blank, student's last name reports.
- If ParentGuardian1FirstName is left blank, student's first name reports.

2009-2010 State Updates Made to PEIMS Submission 1 Record 101 (SIS-15605)

A number of updates have been made to the PEIMS Submission 1 Record 101 extract as well as new Attribution Codes being added.

The following is a list of updates made:

Attribution Code

The following codes have been added:

- 13: TJPC Court Ordered Not Assigned to District
- 14: TJPC Court Ordered Assigned to District
- 15: TJPC Not Court Ordered Not Assigned to District
- 16: TJPC Not Court Ordered Assigned to District
- 17: TYC Court Ordered Not Assigned to District
- 18: TYC Court Ordered Assigned to District

- 19: TYC Not Court Ordered Not Assigned to District
- 20: TYC Not Court Ordered Assigned to District
- 21: RTF Court Ordered Not Assigned to District
- 22: RTF Court Ordered Assigned to District
- 23: RTF Not Court Ordered and Not Assigned to District
- 24: RTF Not Court Ordered and Assigned to District

The following Attribution Codes have been deprecated:

- 08: Texas Juvenile Probation Commission (TJPC)
- 09: Residential Treatment Facility

These two codes will remain visible to the students that currently have these codes.

Even Start Codes no longer report as of the 2009-2010 school year. Codes will remain for current students with codes selected.

The new Federal Race Ethnicity Codes have been added and are as follows (Students Races must be reported in 2009-2010 school year using the new federal race ethnicity codes):

- AmericanIndianAlaskaNative: If 'As of Status' code is A, report blank. All other 'As of Status' codes report 1 if AmericanIndianAlaskaNative is checked, otherwise report 0.
- Asian: If 'As of Status' code is A, report blank. All other 'As of Status' codes report 1 if Asian is checked, otherwise report 0.
- BlackAfrican-American: If 'As of Status' code is A, report blank. All other 'As of Status' codes report 1 if BlackAfrican-AmericanIndian is checked, otherwise report 0.
- HawaiianPaIslander: If 'As of Status' code is A, report blank. All other 'As of Status' codes report 1 if HawaiianPaIslander is checked, otherwise report 0.
- White: If 'As of Status' code is A, report blank. All other 'As of Status' codes report 1 if White is checked, otherwise report 0.

Logic for EthnicityCode Element has been updated to the following (this code will no longer be reported in the 2010-2011 school year):

- Any student who was enrolled in the prior school year, but not in current year, ('As of Status Code' A) should report the 'State Race Ethnicity' code. All other students will report the code selected.

Logic for CTEIndicator has been updated to the following:

- If student is actively enrolled in Grades 06-12 on the Effective Date (AS of Status B, D & F) AND has an active Career Tech Program with a value > 0, report the value in CTE Indicator Code. If 'As of Status' code is A or C or E, report 0. Report 0 if student is not actively enrolled in a Career Tech Program (includes As Of Status A,C & E). An actively enrolled student with a value = 0 in the CTE Indicator OR who does not have an active career tech program should report a 1 if he/she has a CTE course scheduled in the reporting term. This student would fit the following logic:
 - If a student is actively enrolled in Grades 6-12 on the Effective date AND is enrolled in a course with a non-null value in Career and Technical Ed Services (asterisks) during the term that contains the Effective Date, report 1. Otherwise, report 0.

Even Start Indicator has been deleted.

Added new Element of Hispanic Latino.

- Logic: If 'As of Status' is A, report blank. If 'As of Statu's is not A, report 1 if student is Yes for the Hispanic/Latino question. Otherwise report 0.

Local Health Report for 2009-2010 (SIS-10073)

The following modifications have been made to the Local Health Report:

Tdap:

- Students who meet Immunization and Waiver rules set by the state will be reported on Part A accordingly.
- Tdap Dose Date column has been added to Part B.
- When a student is counted in rows 2-7 on Part A for any vaccine other than Tdap, the Tdap Dose Date will be reported on Part B.
- When a student is counted in row 3 on Part A, the District Attorney Date will be reported in the 'Non-Compliant/Report to District Attorney Behind Schedule' column.

- When a student is counted in row 4 on Part A, the District Attorney Date will be reported in the 'Non-Compliant/Report to District Attorney No Record' column.
- When a student is counted in row 2 on Part A, the IP column will be flagged.
- When a student is counted in row 5 on Part A, the H column will be flagged.
- When a student is counted in row 6 on Part A, the R column will be flagged.
- When a student is counted in row 7 on Part A, the PC column will be flagged.

Last Dose columns for Heb B and MMR have been removed from Part B.

Varicella verbiage has been added to Part A. Logic has been updated to meet state specifications.

- When a student has dose date(s) for Varicella and is counted in rows 2-7 on Part A, the total number of doses is reported in the 'Varicella Total Doses or D=Disease' column on Part B.

Corrected logic:

- When a student is counted in rows 2-7 on Part A for any vaccine other than Varicella and has a Waiver for Varicella of HX/Dis, 'D' will be reported in 'Varicella Total Doses or D=Disease' column on Part B.
