

Technical Reference: Montana Edition User Group Tool Rights

October 2008

This document outlines the basic tool rights to be assigned to standard user groups in Montana.

User Group Considerations

Districts and schools must create user groups that grant and restrict user access to specific areas of information. Consider the following when creating user groups:

- Modifying the tool rights of a user group will change the rights for all assigned users.
- User rights are cumulative. For example, if an individual is assigned Read rights to Scheduling in one group and Write rights to Scheduling in another group, the user will have Read and Write rights to the Scheduling module.
- An individual's user rights may be further modified beyond what is specified by his/her assigned user groups.

Privacy Law Compliance

To ensure that unauthorized users do not violate federal FERPA and HIPPA privacy laws, unauthorized users should NOT be allowed access to certain, federally protected areas in Campus.

The following fields/areas of student data are federally protected:

*Student Information > General > Enrollments > State Reporting > **Meal Status***
*Census > People > Demographics > Enrollments > State Reporting > **Meal Status***
*Student Information > General > Enrollments > State Reporting > **Ward of State***
*Census > People > Demographics > Enrollments > State Reporting > **Ward of State***
*Student Information > General > Enrollments > State Reporting > **Homeless***
*Census > People > Demographics > Enrollments > State Reporting > **Homeless***
*Student Information > General > Enrollments > State Reporting > **Migrant***
*Census > People > Demographics > Enrollments > State Reporting > **Migrant***
*Student Information > General > Enrollments > Special Ed > **Service Hours***

- Census > People > Demographics > Enrollments > Special Ed > **Service Hours***
- Student Information > General > Enrollments > Special Ed > **Service Hrs Percent Reported***
- Census > People > Demographics > Enrollments > Special Ed > **Service Hrs Percent Reported***
- Student Information > General > Enrollments > **LEP***
- Census > People > Demographics > Enrollments > **LEP***
- Student Information > General > Enrollments > **Enrollment History***
- Census > People > Demographics > Enrollments > **Enrollment History***
- Student Information > Health > **Conditions***

NOTE: The district system administrator must specifically deny unauthorized users and user groups access to the preceding fields; otherwise, those users will be able to access protected data when pulling ad hoc reports.

How to Use this Document

The following basic tool rights are the **minimum** rights suggested per user group. **ONLY** the rights that differ from those of their immediate containers are noted. If a sub-right is not listed in this document, it can be assumed that it has the same settings as its direct parent.

Example

| | | | | |
|------------------------------|-------------------------------------|-------------------------------------|-------------------------------------|-------------------------------------|
| Grading and Standards | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Reports | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> | <input checked="" type="checkbox"/> |

This setup is for a user who should not have rights to Grading and Standards, but should be able to access Grading and Standards reports. Because the sub-right (Reports) differs from that of its containing section (Grading and Standards), the item is displayed in the document. As the user should not have access to the other sub-rights of Grading and Standards (*e.g.*, Auto Grade, Grading Tasks), these items are not displayed because they rights match those of the parent right (Grading and Standards).
