

Objectives Instructions

NOTE: Special Education Cooperatives do not have to complete the objectives section of the application. The Objectives screens do not allow a cooperative to enter data.

This section provides prefilled information about your district's past performance and attainment of target levels, and it asks you to indicate plans for addressing deficiencies. If you need more information about the prefilled data and your district's past performance, or if you think any of the prefilled data may be incorrect, please contact OPI Special Education Division at (406) 444-4428 for assistance.

Before you begin -- Complete the Planning Tool, Topic 5.

Before entering the Objectives on this screen, you must have completed Topic 5 of the Planning Tool. If you haven't done so, follow these steps:

Return to the Menu List.

Click <Planning Tool>.

Select the radio button, then click <Open>.

Click on the "Topic 5" tab.

Choose or enter at least one goal. You can choose the model goal, if desired, by placing a check next to "Goal 5.0 (IDEA/NCLB Model)." Alternatively, enter a different goal statement or add more goal statements in one or more of the boxes labeled Goal 5.1, 5.2, or 5.3.

Click < [Save Page](#) > at the bottom of the screen.

Note: Special Education Cooperatives must also complete Topic 5 of the Planning Tool before proceeding.

Remember to click < [Save Page](#) > before you leave each screen.

Next step: Go to the "Early_Intervening Services" tab.
