District and Building Information Migrant Education Program-Regular Term Application

Choose the “Yes” bullet circle if you will be serving students who are not enrolled in your district, unless you are applying as a statewide project. Statewide projects should choose “No.”

Under “other participating districts,” enter all information for each district **including your own** in which students will be served. For projects that are not operated by a school district, enter the name of the organization that corresponds to the LE number under which you are applying and the county name and number associated with that LE.

Under “school buildings,” enter **all** school buildings in which students will be served (including your own if applicable). For statewide projects, enter the project name(s) under the building name. (It is not necessary to list all buildings served through a statewide project; however, regular term projects will need to provide a complete list of school building names and NCES codes for those buildings to the SEA separately).

Your risk factor rating can be found in last year's application. Contact the state MEP director if you are a new applicant and do not have this number.

Enter the number of weeks during which you will be providing services to migrant students during the regular term.

Save the page and go on to the Needs Assessment and Service Initiatives tab.
